SINGO LEADS GROUND-BREAKING RAVELLO EVENT

John Singleton has today headed up a ground-breaking event for the Central Coast, signalling construction on his second luxury Gosford development, Ravello, is now underway.

The deluxe residential development comprises 40 large-scale, lavish apartments with largely uninterrupted views over Brisbane Water that aim to set a new standard in luxury living this side of Sydney.

Following on from the standout success of his award-winning, multi-use Bonython Tower development in the heart of the Gosford CBD, Singo explains Ravello will continue to raise standards and heartbeats across our region.

“With Ravello, we’re aiming to create something never before seen on the Central Coast – residences of absolute beauty that raise the reputation of our entire region,” says Mr Singleton.

“We’ve once again hand-picked the very best people from the very best organisations to bring us something extraordinary that will advance our standard of living.

“If Bonython was responsible for putting Gosford and the Central Coast back on the map, then Ravello will skyrocket us to become one of Australia’s most desirable destinations.”

Bonython Property & Investment Group Executive Chairman, Paul Anderson, says it’s exciting to once again be working with leaders in the field to change the façade and perception of our local landscape.

“Ravello is the ultimate example of superior standards and world-class living,” says Mr Anderson.

“Every detail of this development speaks quality and class. From the scale and comfort of every apartment, to the design and positioning of each residence to capitalise on the spectacular water views, to the flawless finishes that include European Oak, custom fittings and individual temperature-controlled wine storage in every apartment, we’re changing people’s expectations of how we can live.”

Following on from their recent Master Builders Association award wins for their work on Bonython Tower and other large-scale developments, Stevens Construction will once again be responsible for the Ravello build.

“An extraordinary level of expertise and excellence is paramount for a luxury development to the standard of Ravello -- and the champion combination of **White + Dickson Architects** and **Stevens Construction** ensures we’re onto a winner,” Mr Anderson added.

Gosford: Riverside Tower Suite 1.4, 69 Central Coast Highway, WEST GOSFORD NSW 2250 (02) 4313 9000
